STICKLEY®

In Walnut Grove, Stickley has combined flowing lines inspired by modern design with moments of sophisticated handwork that beautifully showcase the furniture-maker's art. Contours are carefully sculpted, and structural elements are set apart to incorporate air and create a floating lightness.

We've crafted each piece from solid American black walnut and hand-applied a transparent finish that reveals the grain in all its beauty and complexity. Natural variations, from differences in grain pattern to a deepening of color over time, mean that pieces will vary slightly in tone—a mark of authenticity in the very best solid wood furniture. Walnut Grove is a visually rich collection that seems to have traveled directly from the craftsman's bench to your home.

A close-up photograph of a piece of furniture made from dark-stained walnut wood. The image shows a horizontal top edge with a rounded end, supported by a vertical post. Below the post are two thick, rectangular wooden blocks. The wood grain is clearly visible, showing natural patterns and knots. A white rectangular box is superimposed over the lower part of the image, containing the text 'walnut grove' in a white, lowercase, sans-serif font.

With the addition of center leaves, the intimate round dining table extends to welcome guests. Rounded rear legs extend seamlessly upward to create the strong, graceful back of our sculptural upholstered dining chair. And our console table shows how a remarkable floating-box design creates extra space and flexibility—it is equally at home as a console or functional server.

In Walnut Grove's occasional tables, slightly offset ellipses form a delicate yet stable base full of air and light. Exposed pin joints highlight our time-honored woodworking techniques, and optional stone tops add to a palette of natural materials.

Whether working from home is a choice or a necessity, the Walnut Grove desk offers a handsome, spacious location that makes work a pleasure. Its wide top can handle an array of computer equipment, papers, and materials, with more supplies close at hand in two roomy drawers. The desk is even broad enough for children to work side by side.

Our patented Gathering Island is designed to fit like a glove behind a sofa, offering additional seating as well as functional shelves and workspace. The lower surface aligns with the back of the sofa to create a shelf for drinks or snacks, and an integrated power strip for lights, laptops, and chargers makes the top surface a convenient place to work. When work is done, the island becomes a gathering place for friends and family to relax while watching a movie or a game.

On this elegant bed, an offset frame gives the solid headboard the illusion of draped fabric, and rich walnut rails and upholstery continue around all sides of its base. Soft brass ferrules are a subtle finishing touch.
